The Credentialing Process

- WellCare follows the specific credentialing process and corresponding criteria set forth by NCQA.
- Whether you provide a completed credentialing application or a recently-attested CAQH number, WellCare's credentialing team will conduct primary source verification as appropriate and prepare the provider's file for review by the Credentials Committee.
- "Clean" credentialing files are reviewed weekly by our Medical Directors and approved accordingly.
- Chaired by our Medical Director, the Credentials Committee meets monthly and makes the final recommendation to accept providers as fully-approved participants in WellCare's provider network.

Providers properly credentialed in 2016 will have a contract effective date of January 1, 2017 to coincide with the launch of Heritage Health.

For providers who submit their contracts and are credentialed after January 1, 2017, contracts will be effective the first day of the following month.

The provider will receive a letter advising them of their contract's effective date, along with an executed copy of the contract. The letter will also include their new WellCare provider identification number and instructions on how to register as a participating provider on our website.

There are several things a provider can do to avoid delays in the contracting and credentialing process.

- Ensure that the group name (or individual provider's name) *EXACTLY* matches the name reflected on IRS Form W-9.
- If submitting a CAQH number in lieu of a credentialing application, please ensure that the CAQH profile has been attested to in the last six months.
- The CAQH profile or curriculum vitae must reflect work experience for the last five years; if there are gaps, please provide explanation.
- If the answer is “yes” to any of the disclosure questions on the Nebraska Ownership/Controlling Interest and Conviction Disclosure form, please include explanation.
